

## Holiday Rental Riedel

### House rules "Trondheim" and "Garmisch Partenkirchen"

**Dear Holiday guest,**

we welcome you in Tellerhäuser in the beautiful Erzgebirge. You will spend your holiday in one of our holiday flats which we have furnished affectionately and with much effort.

The following house rules will give you some help as we would like you to treat our flat. Please excuse that it contains some issues which are actually natural.

**General:**

Should you miss something in the facility or you need help, please let us know immediately. We will be happy to help you with information about day trips or any question etc. Everything what belongs into the flats or garden can be used by our guests. Please treat them carefully.

Should you cause harm please get in touch with us. The tenant is liable for damages as far you or your guests are responsible for this or for other reasons. This is not meant for little things such as e.g. broken glass.

**Kitchen/bathroom:**

Please note, only put back into the cupboards cleaned dishes, cutlery and sauce pans which you have used. This also applies for toaster, coffee machine etc. Please do not put wet drinking glasses the wrong way around into the cupboards. Please sort the rubbish out into the available bins (yellow bag, paper, glass and other). Please leave the kitchen on your departure like it was on your arrival.

Do not put rubbish, food or harmful liquids into the sinks, shower or toilet. Please do not throw wipes, tampons, pads, foil, condoms etc. into the toilet. The purification plant is fully biologically. The above named impurities lead to disturbances on the facility.)

**Living room:**

Only use candles (open light) on a fireproof surface and under adult supervision. In the event of a required fire-fighting a fire extinguisher is fitted for emergency in the heater room (lower floor, second door on the right). Also please do not wear skiing shoes in the flats and put them into the heating room.

## Holiday Rental Riedel

Please close the windows when leaving the flat especially in bad weather. Please turn off the radiator while airing.

In the heating room is a hanging rail for coats and ski clothes. You can also use the drying rack to dry wet clothes.

### **TV:**

The TV has satellite connection. Please use both remote controls for commissioning.

**Smoking indoors is prohibited.** Smoking is allowed only outside the house with use of the ashtray. A ashtray can be taken from the heating room.

### **Garden and outdoor:**

Please place the seat cushions for the garden furniture over night and in rainy weather in the provided box.

### **Cellar/Sledge/Ski:**

In the cellar are sledges for free. Please use the small brush at the front door to clean sledge, skis and boots of snow and dirt. Please put the ski also in the cellar.

### **Pets:**

Please do not forget to take your own blanket or basket for your pets. Beds and seating furniture are designed only for 2-legged friends. We also ask to remove any poo from the garden.

### **Arrival and Departure:**

On arrival day you can move into the apartment from 3 pm. On departure day please make sure you are leaving latest at 10 am.

### **For the kids:**

We would be pleased if you can do something with the games and toys, which is of course difficult at different ages. Please put the games and the toys on departure back in the toy box, so other children can enjoy it too.

Have a good holiday, enjoy the environment and relax.

Your

*Peter Riedel*
